Eligible to work in Canada

---

### **Objective**

Experienced carpenter with over 30 years in residential and commercial construction, skilled in creating and restoring building structures from blueprints and based on client specifications. Seeking to leverage my carpentry skills and meticulous work ethic to contribute to high-quality construction and repair projects.

### **Qualifications**

- Extensive experience in designing, building, and installing wooden fixtures and structures.
- Proficient with power tools (saws, drills, planers) and manual tools (hammers, squares, chisels).
- Strong understanding of building codes and safety regulations in Canada.
- Excellent mathematical skills for precise measurements and calculations.
- Capable of interpreting blueprints and technical documents.

### **Experience**

Lead Carpenter

*Zorya LLC, Vinnytsia, Ukraine, 2004 - 2024*

- Plan, coordinate, and execute construction projects, ensuring compliance with safety regulations and building codes.
- Supervise a team of 5 carpenters, delegating tasks and ensuring projects are completed on time and under budget.
- Design and construct high-quality custom furniture and structural fixtures, increasing client satisfaction by 30%.
- Train junior carpenters and apprentices in carpentry techniques and safety protocols.

Carpentry Teacher

*Vinnytsia Technical College, Ukraine 1998 - 2004*

- Develop and Instruct Carpentry Curriculum: Design and teach comprehensive lessons from basic to advanced carpentry, emphasizing safety protocols and hands-on training.
- Evaluate and Enhance Student Skills: Assess student projects, provide constructive feedback, and adjust curriculum to meet industry standards and technological advancements.
- Workshop Safety and Management: Oversee workshop operations, maintain tools and equipment, and ensure a safe educational environment.
- Professional Development: Engage in continuous professional growth to stay updated with current carpentry techniques and educational strategies.
- Community and Student Engagement: Lead community service projects and offer career counseling to help students prepare for professional success in carpentry.

### **Education and Training**

Masters Degree in Engineering

Vinnytsia National Polytechnic University
