Professional Profile

Started with a first education as an electronician in the prestitious Swiss school «Ecoles des métiers» followed by a swiss-model apprenticeship as a « lineman/powercabletecnician» with bilingual tecnicl maturity-schooling. Working as a service-tecnician, being regional responsible at a company named «Consel Group», who proposes solutions in the high-security domaine for access-restriction with exclusive clients like the British Embassy. With a background as a Swiss-guard in the Vatican and a previous security employed I stand for trust, competences and confidencialty towards my clients. I do carry several electrotecnicl and mecanical skills with me, with specialisation in weelding cables under tension as a power-cable-technician.
