## Objective

---

To secure an apprenticeship position in the Electrical field where I can apply and further develop my skills in electrical systems, installation techniques, and safety practices through your esteemed training program. My goal is to earn Journeyman Electrician certification and significantly contribute to your projects' success.

## Skills

---

- Strong written and verbal communication skills.
- Punctual, reliable, and consistent.
- Knowledgeable in electrical systems, including slab, pre-wiring and working with wood framing.
- Knowledge of safety procedures and regulations to ensure safe work environments and prevent accidents.
- Familiarity with the use of various electrical tools and equipment.
- Forklift License: Certified to operate forklifts.
- Ability to perform physically demanding tasks, including lifting heavy objects and working in various environments.

## Work Experience

---

### Construction Electrician

Sep 2021– Jun 2023

*Safi Electric, Kabul Afghanistan*

- Helped experienced electricians with tasks such as holding materials and providing support during installations and repairs.
- Assisted in installing electrical systems, including running wires, connecting outlets, switches, and fixtures, under the guidance of a journeyman.
- Help with testing electrical systems and troubleshooting minor issues using basic testing tools like multimeters to ensure proper functionality.
- Regularly cleaned up work areas, organize tools and materials, and ensure safety standards are met to prevent accidents on the job site.
- Conducting safety inspections and adhering to local building codes and standards.

## Education

---
