ykendald@gmail.com

Vancouver, BC

SUMMARY

Growing up in the construction industry, I've always been a reliable and hardworking professional. I started my career as an assistant to a construction manager, which sparked my passion for the field and led me to pursue a degree in Civil Engineering. After relocating to Canada, I completed a diploma in business management and enhanced my expertise in architectural glazing and high-performance metalwork, contributing to several signature buildings in Vancouver, such as Alberni by Kengo Kuma and The Butterfly Project. I've also developed a strong interest in net zero and passive houses, driven by my commitment to sustainable building practices. Throughout my journey, I've gained a deep appreciation for craftsmanship and innovative design. Outside of work, I enjoy snowboarding, hiking, and sailing -activities that keep me connected to nature and motivated in my professional life.

EDUCATION

Beykent University

Bachelor's Degree in Civil Engineering

Toronto School of Management

Diploma in Business Management

CERTIFICATIONS

- ProCORE
- AutoCAD
- MSOFFICE
- SITEDOCS
- EXCELL
- Fall Protection
