Cell: 250-295-2803 | Email: williamcromarty1@gmail.com

Experienced construction professional with over 15 years of hands-on expertise in concrete work, framing, and structural carpentry. Skilled in executing a wide range of construction projects, including parkades, high-rises, and residential builds. Dependable, adaptable, and committed to workplace safety and quality craftsmanship.

## Skills & Expertise

*Concrete Work:* Forming and pouring for curbs, stairs, slabs, and other structural components.

*Framing:* Wood and metal framing for residential and commercial projects.

*Structural Carpentry:* Specialized in formwork for parkades, high-rises, and suspended slabs.

*Blueprint Interpretation:* Ensuring precision and compliance with construction plans.

*Equipment Operation:* Proficient with Genie Lift and various construction tools/machinery.

*Worksite Safety:* Certifications in Fall Protection and Level 1 First Aid (renewal required).

## Professional Experience

### Construction Worker

JMH Construction – Penticton, BC

Supervisor: Jason Small | 250-809-1894

Performed concrete forming and pouring for curbs, stairs, and suspended slabs.

Assisted with rebar placement and job site preparation.

Delivered reliable support to ensure projects met quality standards and timelines.

### Concrete Worker

LLS Structures Ltd. – Vancouver, BC

Supervisor: Luigi Seppi | 778-323-6765

Worked on high-rise and parkade construction, focusing on concrete formwork and structural slabs.

Collaborated with teams to ensure accuracy and structural integrity during concrete pouring.

### General Construction Laborer

Zoning Construction – Vancouver, BC

Supervisor: Dan Paradise | 604-861-7197

Supported framing tasks, including measuring, cutting, and assembling components.

Assisted with concrete form preparation and ensured proper tool and equipment operation.

### Concrete & Landscaping Laborer

Rapid Landscaping – Vancouver, BC

Supervisor: Bob Morouso | 778-898-0992

Built concrete structures such as curbs and walkways for landscaping projects.

Maintained worksite cleanliness and prepared materials for use.

## Key Projects

*Parkades & Suspended Slabs:* Poured reinforced concrete for durable, high-capacity structures.

*High-Rise Construction:* Contributed to multi-story building formwork and concrete placement.

*Residential & Commercial Builds:* Delivered structural framing and concrete solutions.

*Outdoor Concrete Features:* Constructed functional and visually appealing curbs and stairs.
