PROFESSIONAL SUMMARY

Dedicated and results-driven Civil Engineer with extensive experience in project coordination, construction management, and documentation. Proven ability to manage multidisciplinary teams, oversee compliance with safety and regulatory standards, and deliver projects on time and within budget. Proficient in technical tools such as Bluebeam Revu, Revit, and Microsoft Office. Google-certified Project Manager and Scrum Master with a passion for driving operational efficiency and collaboration.

CORE COMPETENCIES

- Geotechnical Engineering & Soil Testing
 - Project Management
 - Environmental Impact Assessments (EIA)
 - Project Documentation & Reporting
 - Construction Plan Review & Compliance
 - Site Investigation and Material Testing
 - Stakeholder Communication & Collaboration
 - RFIs, Change Orders & Asset Management
 - Site Supervision/Monitoring
 - Revit, Bluebeam Revu, MS Office Suite
-

PROFESSIONAL EXPERIENCE

Environmental Services (EVS) Worker

BC Place Stadium – Vancouver, BC

February 2025 – Present

- Coordinates sanitization and waste management duties to maintain a clean, safe, and welcoming environment in a high-impact, dynamic venue.
- Collaborate with diverse teams, visitors, and event stakeholders to support operational needs, enhance workflow efficiency, and create a positive guest experience.
- Demonstrate adaptability, attention to detail, and strong communication skills in a fast-paced setting with shifting priorities and large event crowds.

University of British Columbia- Vancouver

maintainer 2- (Building and Street Operations)

January 2025 – May2025

- Independently performs manual tasks related to the operation and maintenance of campus roads, utilities, landscaping, building services, water features and waste management.
- Operates light, medium, and heavy vehicles, as well as specialized construction and maintenance equipment (e.g., jackhammers, backhoes, snow clearing equipment)

- Collaborate with teams to manage waste, recycling, and landscaping, enhancing campus functionality using both automated and manual methods.

Embers Staffing – Vancouver, BC

General Construction Aid

(Darwin Construction, PCL)

September 2024 – 2025

- Worked alongside contractors and team members, communicating effectively to maintain workflow and efficiency.
- Assisted with site preparation, material handling, and construction waste
- Operated and maintained construction tools and equipment while maintaining high safety standards

Civil Engineer

Hisachi Construction & Consultancy Ltd.

July 2022 – August 2024

- Coordinated project schedules, budgets, change orders, RFIs, and documentation to meet deliverables and improve overall efficiency by 15%.
- Reviewed construction plans using Bluebeam Revu, ensuring compliance with safety and building codes through detailed markup and communication.
- Supported project-specific safety plans by conducting regular site inspections and collaborating with contractors to address challenges and maintain standards.
- Facilitated subcontractor coordination meetings to resolve technical issues, streamline workflows, and enhance project delivery timelines.

Civil Engineer

Office of the Special Advisor on Project Monitoring & Audit

Office of the Governor, Delta State, Nigeria

September 2023 – December 2023

- Collaborated with the Special Advisor to monitor and audit state-wide infrastructure projects, reviewing contractor performance and verifying compliance with engineering standards and regulatory frameworks.
- Scheduled and led site inspections across multiple LGAs, supervising a team of 7–10 field staff to ensure accurate data collection, reporting, and adherence to project specifications.
- Drafted and submitted comprehensive audit reports detailing findings, risks, and improvement recommendations for executive review and decision-making.
- Acted as a key liaison between government officials, contractors, and technical consultants, facilitating clear communication and resolving project issues during audits and meetings.

Property Manager

PWAN Homes – Delta State, Nigeria

October 2019 – June 2022

- Managed 3 residential buildings housing over 200 tenants, ensuring smooth daily operations, tenant satisfaction, and facility upkeep.

- Oversaw day-to-day operations for a mixed-use portfolio of residential and commercial properties, ensuring tenant satisfaction, building maintenance, and compliance with BC Tenancy Act and municipal codes.
 - Coordinated vendor and contractor services (e.g., HVAC, plumbing, landscaping) and conducted regular property inspections to ensure safety and operational standards.
 - Managed tenant screening, lease administration, rent collection, and renewals, maintaining a 98% occupancy rate and timely receivables.
 - Implemented preventive maintenance schedules and reduced emergency repair costs by 20% over 12 months.
 - Used property management software to track financial performance, prepare monthly reports, and support budgeting
-

EDUCATION

- **Master of Engineering**, (Geotechnics) Delta State University – 2023
- **Bachelor of Civil Engineering**, Delta State University – 2017

Editorial and Peer Review Experience

Reviewer, *springer Journals* – 2023 to Present

- Specializing in geotechnical engineering, materials, soil minerals, waste management and environment.
-

VOLUNTEER EXPERIENCE

Event Volunteer – Camp 5 Calling of an Engineer Ceremony

Queen Elizabeth Hall, Vancouver / March 2025

- Assisted in organizing and coordinating the Iron Ring Ceremony for graduating engineers.
 - Supported event logistics and engaged with engineers, undergraduate students, and ordinates.
-

CERTIFICATIONS

- Confined Space Entry/Monitoring – Worksite BC 2025
 - Workplace Hazards – Canadian Red Cross, 2024
 - Forklift Operator (1, 4 and 5) –Five Star, 2024
 - Bluebeam For Construction – LinkedIn Learning, 2024
 - Scrum Master Certification – Coursera, 2024
 - Google Project Management – Coursera, 2024
 - Project Management Professional (PMP) – University of Virginia, 2023
 - Asset Management IOS 55000 - Udemy
-

PROFESSIONAL MEMBERSHIPS

- Council for the Regulation of Engineering in Nigeria (COREN) – 2023
- P.Eng. Active Applicant
